

Read the floor plan

Room arrangement and dimensions

Start with the rooms and how they connect.

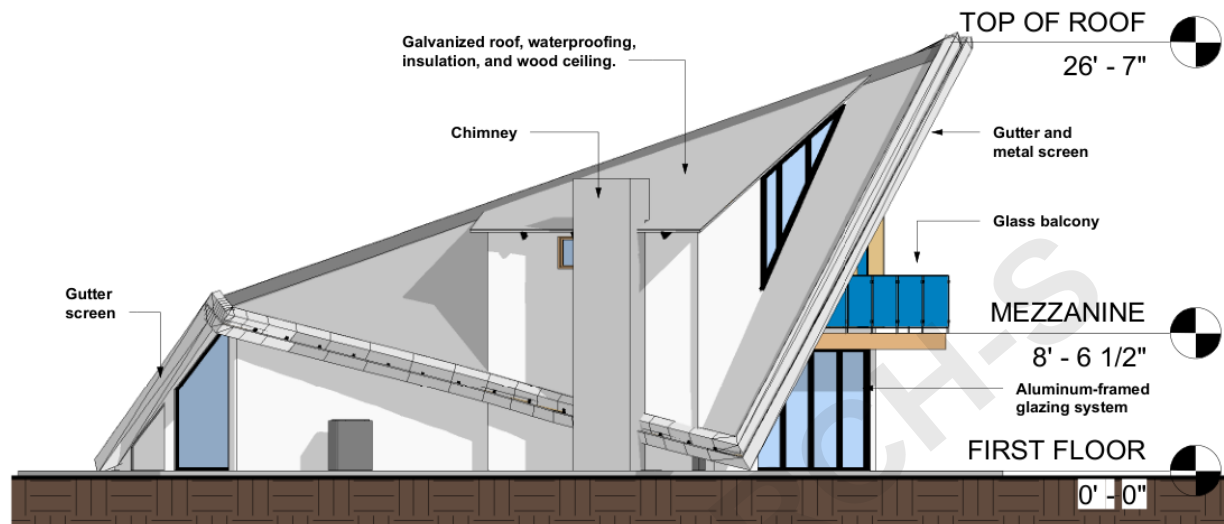

Then compare the dimensions with the furniture and space you need.

This selected plan illustrates the drawing format; it is not the full set.

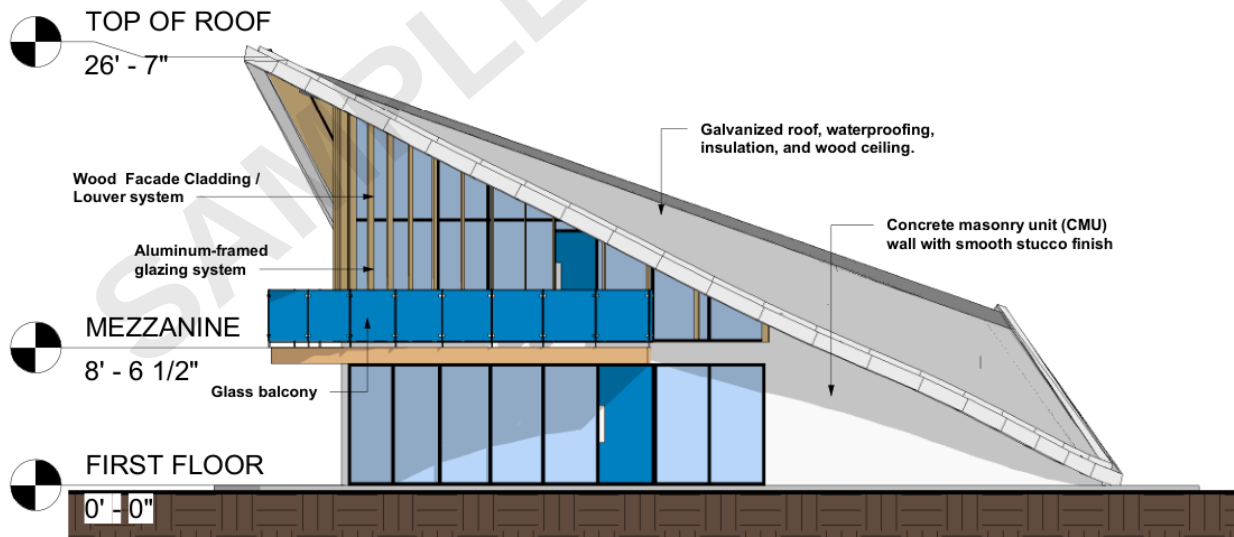

Selected drawings from the Skylight design collection. Not a complete package.
These samples show the drawing format, not site-specific construction instructions.
We can help adapt the design and coordinate the next steps toward local permits.
Or take editable CAD from the purchased package to your own contractor for a quote.

Understand the exterior

Roof profile, openings and exterior materials

① NORTH
1" = 10'-0"

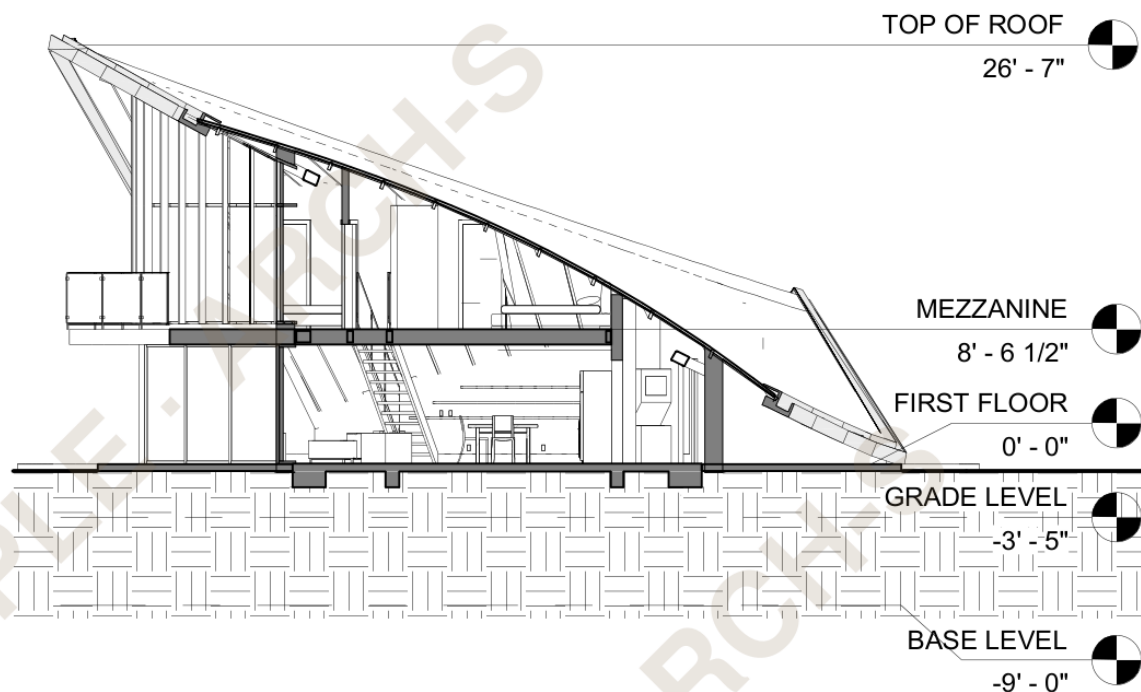

② SOUTH
1" = 10'-0"

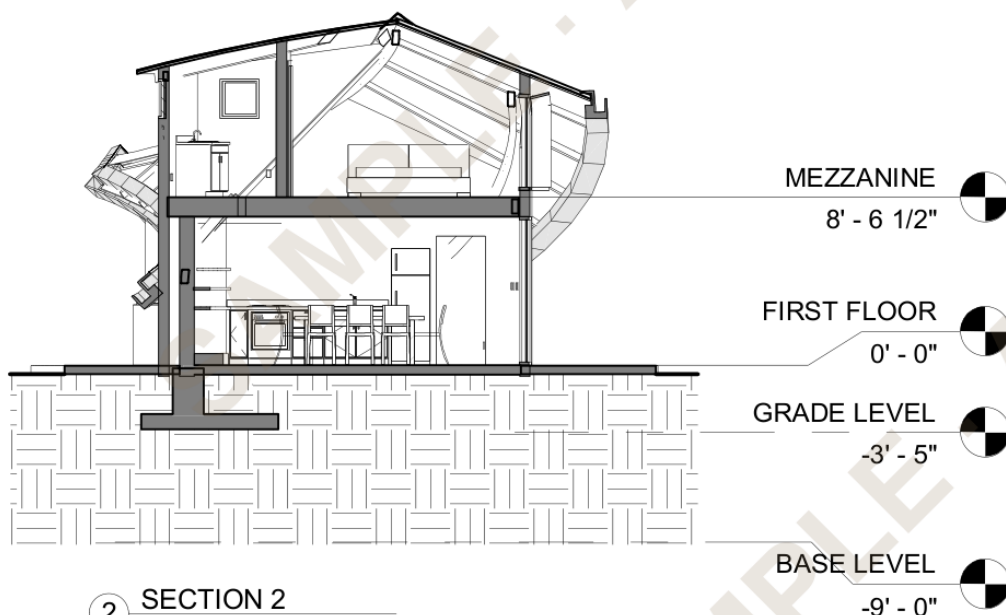

Selected drawings from the Skylight design collection. Not a complete package. These samples show the drawing format, not site-specific construction instructions. We can help adapt the design and coordinate the next steps toward local permits. Or take editable CAD from the purchased package to your own contractor for a quote.

Look through the house

Floor levels, mezzanine and roof geometry

1 SECTION 1
1" = 10'-0"

2 SECTION 2
1/8" = 1'-0"

Selected drawings from the Skylight design collection. Not a complete package.
These samples show the drawing format, not site-specific construction instructions.
We can help adapt the design and coordinate the next steps toward local permits.
